

TECHNICAL DATA:

Length o.a	5.3 m.
Width o.a	2.31 m.
Cockpit width	1.29 m.
Draft	0.37 m.
Weight dry	212 kg.
Payload	390 kg.
Loaded displacement mass	981 kg.
Max. load	792 kg.
Capacity	6 ppl.
Tube diameter max	0.5 m.
Tube material Pvc/Hypalon	1100
Number of chambers	5
Max. engine power	56 kW/75 HP
Shaft length	508 mm./20"/L
Category	C
Hull material	Aluminium EN AW 5083 H111 (AlMg5)

The Spirit S450 C is the ideal beginner's trailerable fun and vacation inflatable boat, suitable for use anytime and anywhere. It combines the advantages of larger Aquaspirit models with a compact size and lightweight design. The hull is double-walled and therefore has a bilge with an automatic bilge pump. It comfortably accommodates four people, with the capacity to transport up to six. There is storage space under all seating areas, making longer trips easy.

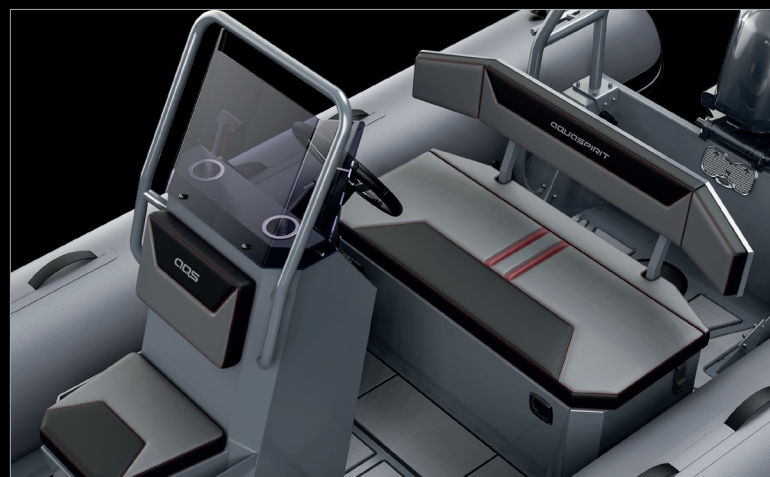

With a fuel-efficient 60HP outboard motor, it easily reaches speeds of over 60 km/h. With a roll bar and water ski hook, it is perfect for wakeboarding, water skiing, or towing a tube. Incredibly, the S450 C can also plane with a 15HP gasoline engine or a 6KW electric motor. This gives you a license-free fun and work RIB, available in many colors, with an optional Bimini top. Also available without a console and in the PRO version for police, fire departments, etc.

Integrated bow step platform

Functional helm console with a front seat

Wide aft seat with an ergonomic backrest

Reinforced navigation arch

ABOUT THE COMPANY:

We develop top-quality aluminum inflatable boats with the best specialists in the industry. Many years of experience with hundreds of boats built are reflected in the quality of our RIBs. The input and satisfaction of our customers is particularly important to us.

We are aware of our responsibility, which is why compliance with and monitoring of the requirements of EC Directive 2013/53/UE are a matter of course for all our Aquaspirit models. They are therefore marked with the «CE» symbol.

The Aquaspirit brand is constantly evolving. At the same time, our experts use the latest design, planning and production methods (CAD, CFD, CAM) to develop models in line with market requirements and the wishes of our customers. Individual wishes can also be realized within the framework of CE certification.

We are only satisfied when you are!
