

## TECHNICAL DATA:

Length o.a	5.88 m.
Width o.a	2.55 m.
Cockpit width	1.74 m.
Draft	0.43 m.
Weight dry (CC/DC)	744/769 kg.
Payload (CC/DC)	1095/1114 kg.
Loaded displacement mass	1854 kg.
Max. load (CC/DC)	667/648 kg.
Capacity	8 ppl.
Tube diameter D-shaped	0.56 m.
Tube material Pvc/Hypalon	1400
Number of chambers	6
Max. engine power	110 kW/150 HP
Shaft length	535 mm./25" /XL
Category	C
Hull material	Aluminium EN AW 5083 H111 (AlMg5)

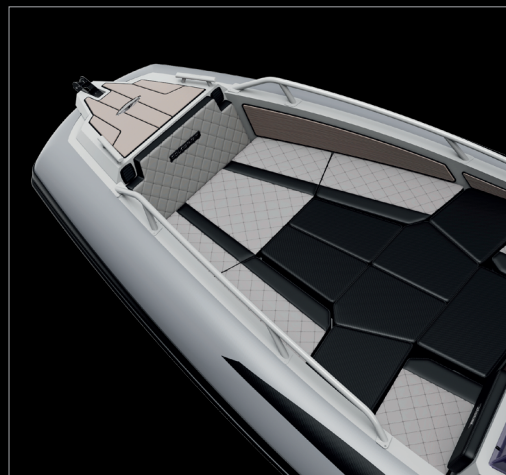

AQUASPIRIT is pleased to introduce the new S585. Its highly stable, double-walled, and foam-filled aluminum hull, made of 4mm thick marine-grade aluminum with numerous longitudinal and transverse reinforcements, makes the boat extremely safe and durable. The D-shaped removable tubes protect the boat during all maneuvers. In service with the Ukrainian Navy, the S585 has demonstrated its exceptional stability and seaworthiness.

AQS S585: the sports boat for leisure and professional use. The S585 is available in many equipment variants. Choose, for example, the hull color in black, dark gray, or light gray. The tubes can also be selected in various color combinations. A fixed T-top, a sundeck, a removable table, a stainless steel swim ladder, and much more make the S585 your perfect boat.

We are happy to advise you. Book an inspiring test drive with your dealer today. Also available in a Pro version for police, fire departments, and water rescue services, etc.

### ABOUT THE COMPANY:

We develop top-quality aluminum inflatable boats with the best specialists in the industry. Many years of experience with hundreds of boats built are reflected in the quality of our RIBs. The input and satisfaction of our customers is particularly important to us.

We are aware of our responsibility, which is why compliance with and monitoring of the requirements of EC Directive 2013/53/UE are a matter of course for all our Aquaspirit models. They are therefore marked with the «CE» symbol.

The Aquaspirit brand is constantly evolving. At the same time, our experts use the latest design, planning and production methods (CAD, CFD, CAM) to develop models in line with market requirements and the wishes of our customers. Individual wishes can also be realized within the framework of CE certification.

We are only satisfied when you are!
