|---------------------------|-----------------------------------|
| Length o.a                | 6,995 m.                          |
| Width o.a                 | 2,85 m.                           |
| Cockpit width             | 2,03 m.                           |
| Draft                     | 0,5 m.                            |
| Weight dry                | 1160 kg.                          |
| Payload                   | 1602 kg.                          |
| Loaded displacement mass  | 2890 kg.                          |
| Max. load                 | 1031 kg.                          |
| Capacity                  | 11 ppl.                           |
| Tube diameter D-shaped    | 0,63 m.                           |
| Tube material Pvc/Hypalon | 1400                              |
| Number of chambers        | 6                                 |
| Max. engine power         | 220,6 kW/300 HP                   |
| Shaft length              | 635 mm./25" /XL                   |
| Category                  | C                                 |
| Hull material             | Aluminium EN AW 5083 H111 (AlMg5) |

Welcome our flagship: the Spirit 700. This boat sets new standards in usable interior space. No boat in this class has anywhere near as much space.

The SPIRIT 700 boasts a unique combination of a fully aluminium hull and groundbreaking D-shaped tubes, which are just 30 cm wide compared to the traditional 60 cm O-tubes found on most RIBs. The flat profile of the D-shape maximises usable space and improves onboard comfort, providing an internal width of over two meters - twice the space of other 7-meter RIBs - indeed, more room than many 9- or 10-meter RIBs.

The S700 is a very agile and extremely robust boat. With 300 hp you can reach speeds of up to 100 km/h. The cornering is breathtaking. Its strong V-shape makes it very seaworthy. It is available in many deck variants with loungers at the front and rear, an additional bench seat, two types of table. Unique luxury features for the Spirit 700 include sun awning, refrigerator, fresh water, an onboard toilet and bathing platforms.

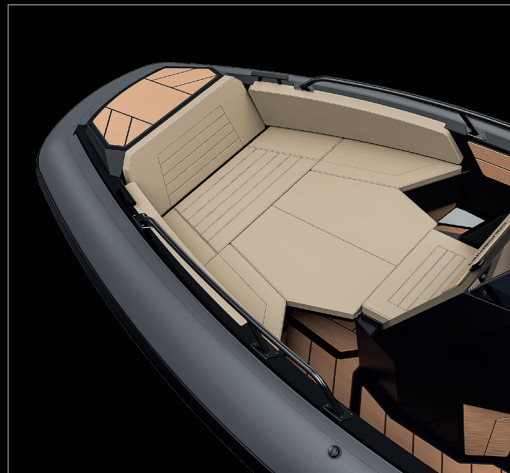

With generous storage capacity and room for up to 11 passengers, the boat is ideal for all enthusiasts, whether for family outings, watersports or a leisurely cruise. Thanks to its ingenious design with removable D-shaped tube, you will have decades of fun with your S700. The eco-friendly boat is built entirely without plastics or fibreglass, and at the end of its lifecycle, the vessel can be easily recycled.

#### ABOUT THE COMPANY:

We develop top-quality aluminum inflatable boats with the best specialists in the industry. Many years of experience with hundreds of boats built are reflected in the quality of our RIBs. The input and satisfaction of our customers is particularly important to us.

We are aware of our responsibility, which is why compliance with and monitoring of the requirements of EC Directive 2013/53/UE are a matter of course for all our Aquaspirit models. They are therefore marked with the «CE» symbol.

The Aquaspirit brand is constantly evolving. At the same time, our experts use the latest design, planning and production methods (CAD, CFD, CAM) to develop models in line with market requirements and the wishes of our customers. Individual wishes can also be realized within the framework of CE certification.

We are only satisfied when you are!
